

Honoco Rd. Association Board Meeting  
Thursday, November 21, 2019

Meeting was at Steve Green's house. Those in attendance: Steve Green, Bob King, Cindy Krause

Holiday cards containing annual dues notices were completed at the meeting and are ready to be sent out.

Cindy has been working to update sponsor list as well as the sponsor board at the road entrance. Letters have been readied to send out. This year the association is reaching out to some new businesses to sponsor the board.

Cindy has also contacted Farmboy Graphics to help update our board. In January Farmboy Graphics will clean and freshen up the board and will begin adding new sponsor names when we get them.

Steve said he would address a question a homeowner has regarding speeding at the road's entrance. He will either email or call and let the board members know that the question has been addressed.

The bridge at 1081 was repaired Sunday, November 17. The owner paid for the cost of the materials and Steve Green and Steve Morse repaired it.

Beginning Friday, November 22 and continuing the following Monday, Tuesday, and possibly Wednesday the final stone will be put down to finish the stone replacement project that was started earlier in the summer. 8-10 loads of stone will be delivered and spread from Deer

Trail to the south end of the road. Any remaining stone will be used to repair potholes on the north end of the road.

Before year's end the two bridges, Hughes and Franklin Point, are in need of repair.

Steve Morse will be heading up snowplowing on Honoco Road this winter.
